Active London based projects designed in Colombo, with a 2 year path to move to London

Green Code Architects Ltd. is a RIBA Chartered Practice with ARB registered architects, fully compliant with ARB & RIBA code of conduct, ethics & quality. Designing & delivering buildings for nearly a decade - next year we celebrate our 10th anniversary & our Colombo Studio is in it's 4th year. You'd be joining a proven team...

Every project on your desk will be a live London scheme - residential, commercial & mixed-use, delivered to UK Building Regulations, Eurocodes & RIBA Plan of Work. These are client facing roles; you'll present to UK clients over Teams & Zoom and discuss projects daily with UK Planning authorities & building control. Excellent spoken & written English is essential. Open Worldwide - International hires receive relocation guidance & Sri Lanka work visa assistance. Following the completion of 2+ years in the Colombo Studio you become legible for the possible *move to London*.
